Dr. Benjamin then discussed APHA’s current business climate, the following are just some of the topics he discussed, the normal rise in business costs, stable margins on the Annual Meeting, more competition in acquiring contracts and grants, and modest rise in membership.

Dr. Benjamin concluded his presentation by discussing APHA’s performance in FY2018, noting both revenue and expenses, and sharing his thoughts on the future of membership (attracting new and retaining current members). At the conclusion of his remarks the Executive Board had a robust discussion on growing APHA’s revenues.

**Dues Discussion** – Benjamin Hernandez, MBA, Treasurer and Aaron Guest, MPH, MSW, Chair, Membership Committee of the Executive Board

Mr. Guest introduced the topic noting revenue needs to be increased to offset the ever-rising operating costs of the Association. He said the Executive Board is being asked to consider a dues increase (based on the authority granted to the Executive Board by the Governing Council in Nov. 2016) or the addition of a transaction fee on all member-related transactions. He then outlined the five options for Executive Board consideration.

After a lengthy discussion regarding the five options the Executive Board agreed the addition of a transaction fee wasn’t a viable solution needing further consideration. The Executive Board then discussed the dues increase. The following was the option discussed by the Executive Board:

- That the Executive Board approves a $5.00 dues increase effective 1/1/2019 (excluding the newly created Agency categories and students).

Dr. Jones began the discussion by outlining the issues surrounding the moratorium on adding additional member units to the Association. The following are some of the items she noted on keeping the moratorium in place, resource limitations, over segmentation of the membership; no evidence new components bring substantially more members, etc. She explained that in order to resolve the issue APHA needs to look its internal structure and the Board needs to agree on a process for addressing the issue. She then turned the presentation over to Ms. Lituri who shared information prepared by the Intersectional Council Steering Committee’s Organizational Efficiency Work Group.

At the conclusion of Ms. Lituri’s presentation the Executive Board had a lengthy discussion on the matter.
