I have reviewed applications for students to receive scholarships to the APHA national meeting. I have nominated myself to the epidemiology section, environment section, women's caucus, and cancer forum and was voted or appointed to the positions for which I nominated or applied. Based on my own nomination experience and reviewing of applications in addition to all the other tasks for which I volunteer at APHA I believe that I would be a good candidate to serve on the nominations committee. I have been a member on and off since 2004 but a steady member since 2017. I also believe that being at a local health department I know what we need to serve as candidates and would choose members accordingly.
