

Additional Committee Reports to Governing Council **June 2022**

Committee on Bylaws

The Committee on Bylaws has received a request from the Caucus Collaborative for a Bylaws change that would include representation of the Caucus Collaborative on the Executive Board. This request has been referred to the Executive Board for its consideration. The Executive Board has been in discussions with the Caucus Collaborative on this matter and is scheduled to take it up at the July Executive Board Meeting. Depending on the outcome of that meeting the Committee on Bylaws is prepared to act as necessary and present any potential changes to the Bylaws to the Governing Council for consideration at the November Governing Council Meeting.

Committee on Membership

The Committee on Membership has been sharing their component's success stories and best practices during the quarterly meetings. The Committee was also introduced to the new Higher Logic platform, in addition to getting updates from APHA staff about APHA Your Way. The Committee will be discussing methods to collect and share best practices using the new platform, as well as creating a toolkit for Committee members
