Dear Leaders McConnell and Schumer, Speaker Pelosi, Leader McCarthy, Chairman Alexander, Ranking Member Murray, Chairman Scott and Ranking Member Foxx:

On behalf of the undersigned 102 national organizations with a vested interest in the well-being of America’s older adults and caregivers, we write to you today in support of the Dignity in Aging Act (H.R. 4334) to reauthorize the Older Americans Act (OAA), which received unanimous support in the House on October 28.

We thank you for working in a bipartisan, bicameral manner to advance a 2019 reauthorization of Older Americans Act, which expired on September 30. Achieving a reauthorization of this critical Act that reaffirms and protects its mission will ensure the sustainability of vital OAA programs, as well as the health, dignity, and independence of older Americans and their caregivers who depend on them.

The OAA is essential to developing, coordinating, and delivering home and community-based services that help older adults age with independence and dignity in their homes and communities. Many individuals served by OAA-funded programs are at significant risk of hunger, isolation, abuse, and losing their ability to live with health and independence. OAA-supported programs are provided to more than 11 million seniors and their caregivers annually. These vital supports include, but are not limited to, home-delivered and congregate nutrition services, in-home supportive services, multipurpose senior centers, transportation, caregiver support, disease prevention and health promotion, community service employment, the long-term care ombudsman program, and services to prevent the abuse, neglect, and exploitation of older adults.

By keeping seniors healthy and in their communities for more than 50 years, OAA programs have delayed or prevented the need for more expensive institutional care for many older adults, which is often paid for through Medicare or Medicaid. OAA services can effectively save taxpayer, state, and federal dollars. In addition to helping older adults age in place where they most often want to be, OAA programs
have improved our country’s fiscal future and promoted efficiencies within the health care system by preventing unnecessary hospital stays, reducing readmission rates, coordinating care, and managing care transitions.

We appreciate the bipartisan manner in which Leaders and Members of the House approved the *Dignity in Aging Act*, H.R. 4334. This legislation to reauthorize the OAA builds upon the early bipartisan Senate draft bill and incorporates a number of important priorities articulated by stakeholder organizations. Moving forward, we understand that the Senate is considering its reauthorization process and appreciate the opportunity to work with Senate leadership on a bill that will garner bipartisan support in both chambers. However, we urge lawmakers in the Senate to incorporate the priorities reflected in H.R. 4334 into a compromise bill.

Most importantly, the *Dignity in Aging Act* calls for much-needed and necessary investments in the OAA by increasing funding authorizations over the next five years—a top priority of the undersigned organizations and the most critical need of the Aging Services Network authorized by the OAA.

Other priority areas include research innovation and demonstrations, Native American services, local planning and development, supports for those suffering from dementias and social isolation, legal services, nutrition, in-home supportive services, disease prevention and health promotion, multigenerational collaboration, and family caregiver supports. We appreciate that both the House and Senate proposals to reauthorize the OAA have preserved the numerous ways in which this Act works so well at the federal, state, and local level, on behalf of the older adults and caregivers for whom it is a lifeline to dignity, independence, health, safety, and economic security.

Thank you for your commitment to this important issue. The undersigned organizations represent a diverse set of stakeholders, and we stand ready to build upon existing momentum to swiftly advance a bill to reauthorize the Older Americans Act through the full Senate and to the President’s desk.

Sincerely,
