Dr. Benjamin thanked the chair, and began his presentation by discussing the 2016 Annual Meeting. He addressed everything from the General Sessions to the final program and mobile app. He then discussed and disseminated APHA’s 2016 Annual Report. He discussed APHA’s plan to proclaim 2017 the Year of Climate and Health.

He then turned his attention to the political landscape and upcoming presidential and Congressional election. He spoke at length about potential end of the year legislative issues, and the challenges facing the next administration. He said that whatever happens with the election, APHA will advocate passionately for public health.

He then discussed the roll-out of Public Health 3.0 by the Department of Health and Human Services. Dr. Benjamin said this is the first time an assistant secretary of health made a proactive statement that the health leader in a community should be the chief health strategist for that community. He went on to say that public health 3.0 addresses the importance of collaboration between federal, state and local health leaders, and that public health 3.0 strongly endorses accreditation as an accountability tool.
Dr. Benjamin concluded his presentation by discussing the work Trust for America’s Health did around federal priorities for a healthier America, and the report by the National Academy of Medicine entitled Vital Directions for Health and Health Care – Better Health and Well-Being.

Dr. Benjamin answered questions from members of the board throughout his presentation. Hearing no further questions, he turned the meeting over to Chair Short. The chair thanked Dr. Benjamin for his presentation and introduced the next item on the agenda.

Membership Dues Discussion – Georges Benjamin, MD, and Kemi Oluwafemi, MBA, CPA, Chief Financial Officer

Dr. Benjamin reintroduced the three dues proposals going before the Governing Council for approval. The proposals include the bulk membership plan for schools and programs of public health, the restructured agency dues plan, and a membership dues increase beginning in 2018 for every other year for four years based on the consumer price index. Throughout his presentation Dr. Benjamin asked Ms. Oluwafemi to discuss the financial implications of each plan.

At the conclusion of his presentation, Dr. Benjamin and Executive Board members had a robust conversation related to the proposals. Hearing no further discussion, Chair Short thanked Dr. Benjamin and Ms. Oluwafemi and introduced the next item on the agenda.

She took a moment to reintroduce the redesigned strategic plan infographic, and discuss the Governing Council breakout session taking place on Sunday morning. She then turned the presentation over to Dr. Polan who shared new data related to the metrics concerning the strategic plan.

Chair Short then introduced the next item on the agenda

Governing Council Report – Barbara Giloth, DrPH, MPH, Speaker

Dr. Giloth shared the major items on the Governing Council meeting agenda with the Executive Board. She highlighted the dues proposals, the proposed revisions to APHA’s bylaws, and the proposed changes to the Joint Policy Committee’s policy development document and archiving procedure.

Concerning the bylaws there was a robust discussion surrounding the word unit versus component. Dr. Giloth said that the Bylaws Committee feels the use of unit is appropriate, and that is what the Council will vote on at the meeting. Another issue that was discussed was amending the bylaws to be in line with the Caucus MOU that states each caucus must have at least 25 APHA members. After a long discussion, Dr. Giloth made the following motion:

The Executive Board requests that the bylaws amendments before the Governing Council include the requirement that Caucuses have 25 APHA members per the current Memorandum of Understanding.

The motion was moved and seconded, and after a period of discussion, Dr. Giloth asked that the vote be tabled until Oct. 28. After an additional period of discussion, it was agreed to table the motion until Oct. 28.

Dr. Cohen began his presentation by thanking the members of the Finance and Audit Committee for their efforts over the past year. He also thanked APHA’s CFO, Kemi Oluwafemi, for her work as well.

Dr. Cohen said the fiscal year 2016 audit was complete, and APHA received an unmodified opinion, which is a clean audit from our accounting firm Tate and Tryon. He said the auditors noted that they made no adjustment to Ms. Oluwafemi’s final report, which is very unusual.

Dr. Cohen said APHA ended FY 2016 with a net loss of $219,418. He said membership, conventions, advertising, book sales, interest income and grants and contracts didn’t meet their projected revenue targets. He said subscriptions, rent and miscellaneous income met their targets for FY 2016. Dr. Cohen then made a motion to accept the fiscal year 2016 audit. **Motion:** That the Executive Board accept the fiscal year 2016 audit.

**Outcome:** Approved by acclamation.

Dr. Cohen then discussed FY 2017 through Sept. 30, 2016. He said revenue is under projection by $494,903, and expenses are under projection by $417,094. He said the bottom line is that APHA revenue streams continue to face challenges, and that management will modify future activities to address shortages to remain within budget. Dr. Cohen conveyed his support for the proposed dues actions, and opened the floor for questions/comments.

She went on to say, the Committee hopes the Board will adopt and use the modified Robert’s Rules of Order document prepared by Speaker Giloth.

Dr. Levin discussed the work of the Committee on Social Responsibility. She said the Committee focused their efforts on two main items over the last year. The first project was rewriting the criteria to distinguish between Companies and their associated Foundations. The second project focused on revamping the evaluation tool Component and Affiliate leaders and APHA staff use to analyze potential funders.

Dr. Levin introduced the criteria to distinguish between companies and their associated foundations. Dr. Kumanyika inquired if using “weapons of mass destruction” was the correct term, and she shared her concern with using “violates international marketing standards of health-related products.” Dr. Giloth asked several questions related to the document, noting independent foundations should be evaluated differently than corporate foundations; she suggested the criteria be tightened to not cause any confusion or misinterpretation. Dr. Levin thanked Executive Board members for their comments, and said CSR will work on making changes to the document in the coming weeks, and report back to the Board at a future meeting.

Regarding the evaluation tool for Component and Affiliate leaders, Dr. Levin said that the tool was developed to assist leaders as they seek funding. She said the leaders of the ISC and CoA are reviewing the document. The Chair of the CoA, Ms. Chesnut said she thought the evaluation tool would be helpful as Affiliates seek funding. She said the list of CSR approved organization will reside in APHA Connect and the Affiliate Online Community. She said the document would serve as a tool to educate Affiliate leaders on how to evaluate a potential funder. Dr. Bellamy shared her thoughts on Affiliate independence, Dr. C. Jones asked clarifying questions related to the intent of the document, and Dr. El-Mohandes said that APHA should guide Affiliates, but not dictate who and how they seek funding.

Dr. Levin concluded her remarks by presenting the redesigned evaluation tool members of the CSR will use to evaluate prospective funding organizations. MS. Greene-Moton voiced her approval of the evaluation tool saying that the document allows reviewers to be more objective in their evaluation.

Hearing no further questions, Chair Short thanked the presenters for the reports and introduced the next item on the agenda.

APHA Membership Discussion – Lynn Short, RDH, MPH

The Executive Board discussed APHA’s current membership situation, and passed the following motion:

The Executive Board feels strongly that now is the time to shift the Association's membership priority to engagement and retention, incorporating the new strategies voted on by the Governing Council at the 2016 Annual Meeting. This in no way suggests that we would suspend routine recruitment activities, but rather is intended to shift the idea of members size, growth and sustainability to a pathway that is more dependent on engagement and retention rather than on generating a stream of new members who may not continue their membership. This "depth" oriented strategy may actually have an effect on enhancing the brand and increasing our impact.

Chair Short made brief concluding remarks, and hearing no further business, adjourned the meeting.

The next meeting of the Executive Board will take place January 8 – 10, 2017 in Washington, D.C.
