Did You Know?

- **1 in 5** college women and **1 in 16** college men are targets of attempted or completed sexual assault while they are college students.

- **75-80%** of reported cases, the victim knows her attacker. It is often an acquaintance, classmate, friend, or (ex)boyfriend.

- **50-70%** of assaults involve alcohol consumption by the perpetrator, survivor, or both.

- Only **2%** of incapacitated sexual assault survivors, and **13%** of forcible rape survivors, report the crime to campus or local law enforcement.

- **40%** of college survivors cited fear of retaliation by the perpetrator or the community as a reason for not reporting.
