BOARDS & APPOINTMENTS

Defense Health Board, a Federal Advisory Committee to the United States Secretary of Defense

2021-2025

Executive Board, American Public Health Association

2020-2024

Professorial Lecturer, Milken Institute School of Public Health, George Washington University

2018-present

Dean's Community Advisory Council, University of Maryland, School of Public Health

2016-present

Past President, New York State Public Health Association

2012-2014

EXPERIENCE

Managing Director

Public Health Division, The MITRE Corporation

📅 2021 - 2024 📍 McLean, Virginia

Advanced the strategic priorities for a \$60M+ portfolio of programs with 60 staff in the Health Federally Funded Research and Development Center supporting key health organizations within the United States Government.

- Responsible for all aspects of strategy and execution for MITRE's public health portfolio including oversight and direction for MITRE's FFRDC work at HHS with a focus on CDC, HRSA, IHS, FCC, SAMHSA, ACL, ACF, ASPE and the Office of the Assistant Secretary for Health to meet their respective missions.
- Recruited and developed world-class technology & innovation talent and expertise across three Departments by cultivating a continuous learning culture across multidisciplinary teams.
- Cultivated and maintained a network of relationships with executive and senior leaders at the various federal sponsor agencies and national public health partner associations.
- Collaborated across MITRE National Sector and Public Sector divisions for strength building in work programs and integration of "health in all" approaches.
- Fostered collaborative visioning and opportunity growth across the operations of the federal health organizations including legislative, public, fiscal, and technical dimensions for increased mission impact.
- Lead the development of approaches to solve or mitigate governmental operational challenges.
- Created a marketing strategy with the MITRE Strategic Communications team to enhance the Center for Transforming Health and the Public Health Division's visibility, credibility and presence on social media for networking growth.

Chief Program and Services Officer

National Association of County and City Health Officials

📅 2019 - 2021 📍 Washington, District of Columbia

Oversaw a \$28M portfolio (which I grew to \$90M) and a team of 100 health professionals providing executive leadership, membership and business development, and capacity building to the country's 3,000 local governmental public health departments.

- Directly reported to the Chief Executive Officer and served as an executive leadership team member overseeing and directing all programmatic operations and budget management, membership initiatives and meetings services.
- Provided health and policy information to global and national health agencies, public private partnerships, community groups, universities, and media outlets.
- Played a pivotal role in national leadership and support during the pandemic and leadership as the incident commander for NACCHO's national response efforts on emergent health threats such as COVID-19, Zika, and natural disasters.
- Strengthened the capacity of local health department programs by providing technical and capacity building assistance, developing and disseminating tools and resources, and facilitating information exchange, peer engagement, and learning opportunities.
- Responsible for directing the implementation of programs, promotion and diversification of funding.
- Assisted in raising NACCHO's profile through external and board engagement, media communication and partnership development for the advancement of NACCHO's mission and local health department success.

EXPERIENCE

Senior Advisor of Public Health Programs

National Association of County and City Health Officials

📅 2015 - 2019 📍 Washington, District of Columbia

Supervised a portfolio budget of \$14 million, providing leadership and management for the programmatic divisions covering Infectious Diseases Prevention and Control, Immunizations, HIV, Sexual Transmitted Infections and Viral Hepatitis, Public Health Preparedness, Public Health Law, Pandemic and Catastrophic Preparedness, and Public Health Informatics.

- Served as primary staff liaison with federal or other policymakers and funders (HHS/ASPR, CDC, ATSDR, USDA, DHS, EPA, FDA, HRSA, NCHS, FEMA, foundations, corporate partners) and academic institutional linkages for workforce traineeships, internship practicum and applied practice-based research opportunities.
- Directly oversaw and co-chaired two national conferences: the annual Preparedness Summit (1,400 attendees) and the biannual Public Health Informatics Conference (900 attendees).
- Created the Rural Health Section comprised of NACCHO members and partners working together to articulate a high level strategy for advocacy, goal attainment, structural system requirements, resources and approaches to improve rural health.

Director of Epidemiology & Public Health Planning

Rockland County Department of Health

📅 2002 - 2015 📍 Pomona, New York

Responsible for mitigating all disease outbreaks and investigations for a population of 312,000 residents. Implemented several community health initiatives resulting in Rockland County becoming ranked No.1 among all counties in New York in 2015

- Conducted epidemiological surveys and analyses pertaining to the evidence of communicable and chronic diseases in Rockland County.
- Developed and implemented policies and procedures for disease surveillance to identify at risk populations. Investigated all disease outbreaks to determine cause, source and recommended methods to prevent the spread of disease.
- Maintained, compiled and reported statistical data concerning disease trends. Planned and maintained community-wide disease surveillance initiatives with special emphasis on schools, hospitals and health institutions.
- Presented at town halls and hearings interpreting scientific, epidemiologic and technical data in response to community, elected officials and media inquiries on several disease related issues.
- Developed a novel collaborative approach to conducting neonatal Herpes investigations in ultra-Orthodox Jewish communities resulting in comprehensive changes to participation and community adoption of best practices.
- Organized the Department-wide review and submission of the standards and measures necessary for achieving local Public Health Accreditation, trained and served as the Department's Accreditation Coordinator.
- Wrote and successfully awarded \$1 million HEAL NY Phase 9 grant award for Local Health Planning Initiative, serving as Project Director for the 7-county collaborative in the Hudson Valley.
