## ANNUAL MEETING & EXPO

### APHA 1872 Society Donor List

Established in 2024, the **APHA 1872 Society** is the Association's giving society, named in honor of the year Dr. Stephen Smith and other public health pioneers founded APHA.

The 1872 Society honors APHA's history while helping advance a healthier, more equitable future. Through unrestricted contributions to the APHA General Fund, members strengthen APHA's ability to advance public health for all and stand for science, action and health.

The following list recognizes 1872 Society members whose qualifying contributions were received during Fiscal Year 2026 (July 1, 2025—June 30, 2026). We strive to ensure the accuracy of our donor recognition.

If you notice an error or omission, please accept our apologies and contact APHA's Development Office at [Development@APHA.org](mailto:Development@APHA.org).

Thank you for your generous support of APHA and public health.
